

Havana Racing Meet to Start Thanksgiving

CONTACT MAY BE A SECOND ELY

With 20,000,000 tons of ore available for shipping, with 55 miles of richly mineralized zone to be developed, with in excess of 75,000 feet of underground work actually finished in the district, Contact, a little known town in Elko county, seems destined to be a second Ely within two years, says the Elko Free Press. Transportation is all that keeps Contact from being a city of 5000 people, and steps are being taken now to procure the necessary funds to build the proposed railroad from Rogersen Idaho to Elko county. It will be raised and the enthusiasm of the Contact people is such that they themselves have subscribed half of the money allotted to Elko county. With Wells adding Contact, \$25,000 of the \$50,000 to be raised in Elko county is assured, and Twin Falls has raised the \$45,000 that is to be subscribed by the Idaho people.

Several miles of the railroad from Idaho to Elko county would be built in Elko county. The proposed road, assessed at the same valuation as that made of the Nevada Northern, would be worth \$23,174 a mile, and two years would pay in taxes to Elko county \$40,000 a year on the railroad and property tax. This does not include the taxes that would be paid into the state treasury.

FITZGERALD FOR STATE SENATOR

On November 2 the people of Nye county will be called upon to elect a senator to be their representative in the state legislature at Carson City for the ensuing term. This county can send but one member to the upper house, hence, it is urgent that the voters exercise the most thoughtful intelligence in making their selection at the polls.

By J. Fitzgerald is the regular Democratic nominee for state senator from Nye county. In his candidacy for that office he brings before the people of the county his record of six years as assemblyman. This record is one of efficient and loyal service. He has ever been alert to the public welfare. In view of such a record Mr. Fitzgerald is logically the candidate best qualified to serve Nye county in the state senate, and, in that capacity, to serve the people of the state at large.

As the office to which Mr. Fitzgerald aspires is purely legislative, his record as a legislator readily becomes the basis for his claims to the suffrage of the county. As assemblyman he took an active part in the passage of laws which deal directly with existing conditions, laws which affect present-day interests of every citizen of the state, and all of those laws are alive, progressive measures in active operation today. Every voter should study them and decide whether or not they mean anything.

With pardonable pride Mr. Fitzgerald can also point to his record as speaker of the lower house. During his administration the organization of the house, the systematic business methods which prevailed, the amount of needful legislation adopted and the amount of money saved all became matters of state record which will bear the closest scrutiny. Under the same organization the woman's suffrage amendment was ratified in record time, the whole session lasting less than two hours, and the amendment requiring only 45 minutes in passing. No other state legislature passed the measure in so short a time or at such a small expense to the taxpayers. —Adv.

LOWER VALUES IN WHITE PINE

No decrease in the valuation of the Dunphy estate lands in Eureka and Lander counties was granted at Monday's meeting of the state tax commission, the report of E. S. Pohe, who was appointed to make an appraisal and new classification showing valuations \$48,000 higher than those placed on the lands by the assessors of the counties named, says the Carson News.

The following reductions were allowed as a result of the new appraisements made in White Pine county: Adams-McGill properties, \$40,000; R. T. Swallow lands, \$4000; lands owned by Ely Water company, \$10,000.

The board did not adjourn, but recessed for a period in which to obtain certain required stipulations before acting on requests to rescind orders putting blanket increases on lands and town property in Washoe county, Churchill county lands and Clark county town property.

The matter of the cases of the state against the Nevada-California Power company was referred to the attorney general.

DEAD-LINE ALONG GERMAN FRONTIER

(Correspondence of Associated Press) THE HAGUE, Oct. 12.—The Dutch government has established a dead-line 500 yards wide along the German border in an effort to curb the smuggling which has assumed tremendous proportions, particularly in foodstuffs and rubber goods going into Germany. Soldiers are constantly on watch on the dead-line, but, in spite of these measures, the smuggling continues.

BECAUSE as a rancher he has felt the effects of Democratic free trade on the price of his products.

BECAUSE as an engineer and a scientific man he can present to Congress in a convincing manner the differing conditions of the West, and secure more suitable legislation.
